34	Verified projects

Participants:
80 518
households

- **Overall value of submitted projects:** UAH 7,304,272,000
- **Grants value:** UAH 4,540,403,000
- **Number of affected households:** 80 518
- **Energy savings:** 413, 272,055kW·hour/year or UAH 540,200,000
- **Avoided CO2 emissions:** 110,45 tons/year

+14 APPLICATIONS IN JANUARY

Dynamics of incoming applications

Total modernized projects

110 pieces

In the process of construction work and preparation of documents for reimbursement

99 pieces

Total modernized projects

34 projects

Completed participation in the Program (received all grants)

Participants:

8 186

households

• **Value of modernized projects:**

UAH 710,323,000

• **Grants value:** UAH 494, 860,000

• **Avoided CO2 emissions:**

10,127 tons/year

• **Energy saving:** 38,000,000

kW·hour/year or 49,500,000 UAH/year

HOA «Nyzhnia Gorova, 44»

Implemented measures include:

facade insulation

Arrangement of the entrance door airlock

Replacement of door to the basement and installation of perimeter pavement

Project Factsheet:

- **Project value** – UAH 3.3 million
- **Grant from the Fund** – UAH 2.3 million
- **HOA's contribution** – UAH 997,900
- **Cost per apartment (60m²)** – UAH 9,825 or 163.75 UAH/m²
- **Households save** on average UAH 10,200 annually per 60m² or 169.2 UAH/year per m²

Quote:

Yulia Ostapchuk, head of HOA «Nyzhnia Gorova, 44» in Cherkasy:

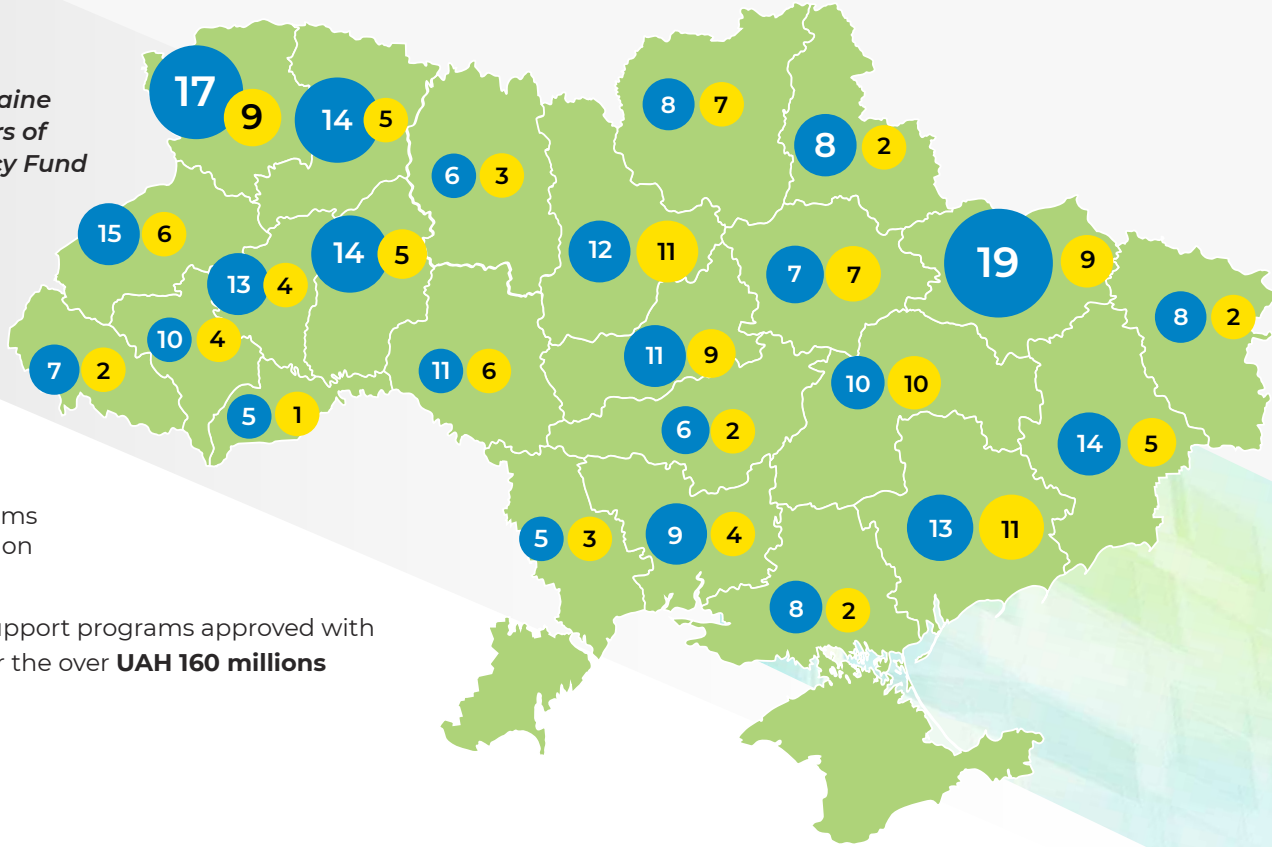

«After renovation, apartments are a lot warmer and more comfortable, and the building looks very pretty on the outside. Energy consumption in the building dropped by nearly 20% in November-December 2021, vis-à-vis comparable period prior to the renovation».

Cooperation with Local Communities

250

communities of Ukraine became the partners of the Energy Efficiency Fund

250 Memorandums on cooperation

129 Municipal support programs approved with financing for the over **UAH 160 millions**

Energy efficient region: Dnipro city

In the city there are:
50 projects

The project cost makes:
UAH 49 million

- There are over 1200 HOAs in the city.
- The EE Fund signed a memorandum of cooperation with the Dnipro city council in July 2021.
- The government of Dnipro established a municipal facility aimed to support local HOAs participating in the Energodim program and seeking to implement energy saving measures. The facility is designed for 2022-2026 and backed with UAH 1.2 Bn of financing.
- The facility offers non-refundable compensation of up to 30% of the cost of works and an interest-free repayable assistance of up to 20% of the cost of all improvements, which the HOAs will pay back from the achieved savings.
- Under the terms of the facility, in the next 5 years, Dnipro city undertakes to disburse UAH 500 Mn of refundable and UAH 700 Mn of non-refundable aid.
- More details on the terms of getting up to 20% of the cost of improvements on the interest-free repayable basis can be found at: <https://cutt.ly/1T6qTf5>, for details of the terms of obtaining up to 30% of the costs on the non-refundable basis please see – <https://cutt.ly/ZT6qSLh>.

January Highlights

1

Additional grant of 10% to Energodim program participants

The donor coordination council amended Energy Efficiency Fund's grant policy to envisage an additional grant of 10% for participants of Energodim program.

Thus, HOAs will benefit from compensation of 50% of the cost of improvements/ works under package A "Light" and 60% of package B "Comprehensive".

2

Energodim presentation for HOAs in Dnipro

The Fund's management discussed benefits and opportunities of the Energodim program with HOAs at a presentation in Dnipro.

Dnipro has a strong local HOA support program for 2022-2026 with funding of UAH 1.2 billion. The city will partner with the Fund to implement the first 5 pilot projects in 2022.

More details in the news: <https://bit.ly/3rn1fi>

3

More entries to the Album of Technical Solutions

Experts of the Fund added to the Album more standard technical solutions which meet engineering requirements of the Fund to the design of energy efficient measures in buildings as part of the Energodim program.

The additions include new engineering solutions for ventilation systems with waste heat recovery and for pipelines insulation.
