- Declared CO² emission reduction:** 2 834,5 t/year
- Energy savings:** 9,5 million kWh/year or UAH 12.8 million
- Participants:** 2 123 households

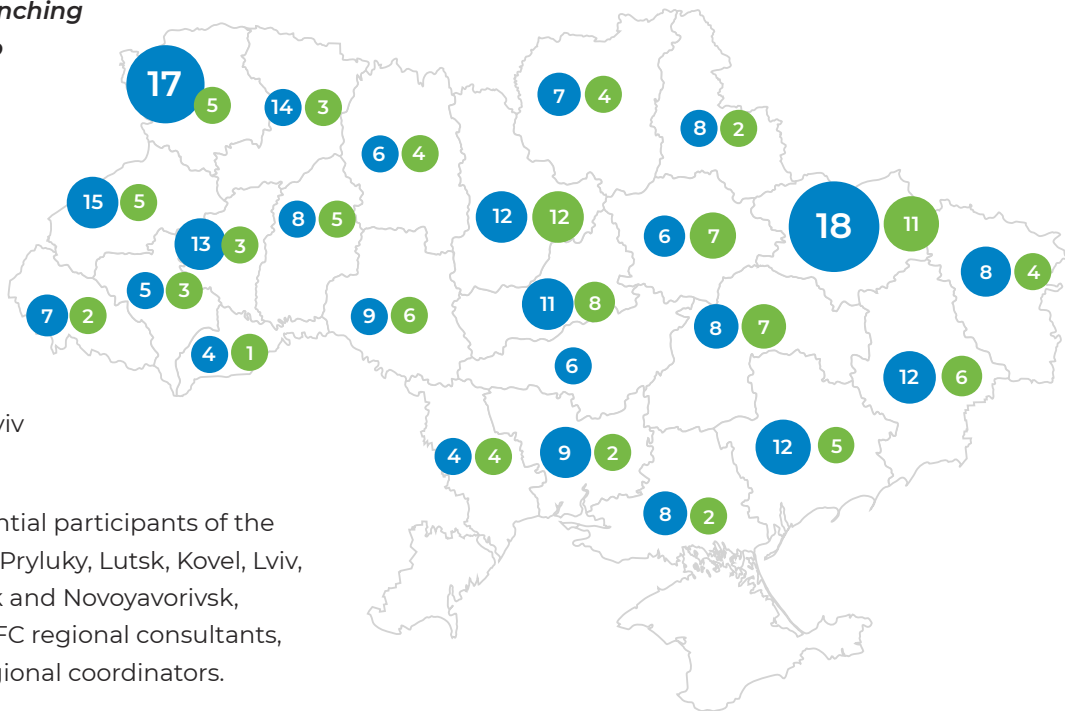

Cooperation with Local Communities

The Energy Efficiency Fund is launching a series of demonstration visits to various regions of Ukraine.

Purpose: To present the completed projects of energy modernization of apartment buildings within the Energodim Program to local HOAs and the media.

In June, 4 visits to Pryluky, Lutsk, Lviv and Novoyavorivsk took place.

Participants: about 50 HOAs-potential participants of the Energodim Program from Nizhyn, Pryluky, Lutsk, Kovel, Lviv, Drohobych, Stryi, Boryslav, Stebnyk and Novoyavorivsk, representatives of municipalities, IFC regional consultants, and EU/UNDP HOUSES Project regional coordinators.

226
